

QuizQuest

for visitors to CNG

QuizQuest has proved to be of great educational value, generating discussion concerning woodlands and in providing feed-back to benefit future visits. Everything in these questions has been observed on the guided tour.

Sample Questions

From my database of questions

- * Why do we put up nest boxes - so we feel good ?
- * Name five wild flowers of the forest observed while walking up from the gate ?
 - * Why do most forest flowers bloom in the spring ?
 - * Who was Gain and why did she hide here ?
 - * Where are insects to be found in the woodland ?
- * What's the first thing to look for in assessing the health of a woodland ?
- * Name three native conifers, two of which grow in Coed Nant Gain ?
 - * Name a key indicator of a healthy woodland ?
 - * Why are fungi never green ?
 - * What kind of rock is CNG standing on ?
- * What makes up the forest community- apart from trees ?
 - * How many other woodlands have you visited ?

THANK YOU

I HOPE YOU ENJOYED YOUR VISIT ! COMMENTS IN THE VISITOR BOOK OR EMAILED TO ME AFTERWARDS WOULD BE APPRECIATED. Please take this paper with you for contact info.
